**ELSEVIER SUBSCRIPTION AND OPEN ACCESS
PUBLICATION AGREEMENT**

**Schedule 3
Open Access Terms**

1 Background

1.1 Corresponding authors affiliated with the Subscriber shall be referred to as “Corresponding Author(s)”.

2. Prior to the execution of this Agreement

In the event that articles are accepted for publication upon the execution of the Extended Access Letter by both parties, the following provisions shall apply to articles accepted for publication in 2025 in core hybrid eligible journals:

2.1 Articles Accepted Post-Signing: Articles accepted for publication after the date of signing the Extended Access Letter shall be immediately eligible for Open Access (OA) publication without incurring Article Processing Charges (APC) for affiliated corresponding authors directly via the publication workflow.

2.2 Articles Accepted Pre-Signing:

Articles accepted prior to the execution of the Extended Access Letter and subsequently published in a subscription journal shall be eligible for retrospective conversion to OA.

Articles accepted prior to the execution of the Extended Access Letter and published in OA shall not be counted against the APC quota (if applicable), nor shall they be eligible for refunds to the corresponding author.

3 Open Access

3.1 During the Initial Term, Corresponding Authors are granted the right, as part of open access rights and subject to the terms of this Schedule 3, to publish an unlimited number of Open Access articles each year in the Elsevier owned and published:

(a) core hybrid Freedom Collection journals set out in Annex A to this Schedule 3 (the “Eligible Journals”) except for the hybrid The Lancet and Cell Press journals.

3.2 Journal inclusions may from time to time be subject to change, including, but not limited to, changes resulting from the addition of new journal titles, journal transfers and/or changes of business model or ownership. If

**CONTRATO DE SUSCRIPCIÓN Y PUBLICACIÓN
DE ACCESO ABIERTO DE ELSEVIER**

**Anexo 3
Términos de acceso Abierto**

1 Contexto

1.1 Los autores correspondientes afiliados al Suscriptor se denominarán “Autores Correspondientes”.

2 Antes de la ejecución de este Contrato

En el caso de que se acepten artículos para publicación tras la ejecución de la Carta de Acceso Ampliado por ambas partes, se aplicarán las siguientes disposiciones a los artículos aceptados para publicación en 2025 en revistas híbridas elegibles principales:

2.1 Artículos Aceptados Después de la Firma: Los artículos aceptados para publicación después de la fecha de firma de la Carta de Acceso Ampliado serán inmediatamente elegibles para publicación en Acceso Abierto (OA) sin incurrir en Cargos por Procesamiento de Artículos (APC) para autores correspondientes afiliados directamente a través del flujo de trabajo de publicación.

2.2 Artículos Aceptados Antes de la Firma: Los artículos aceptados antes de la ejecución de la Carta de Acceso Ampliado y posteriormente publicados en una revista por suscripción serán elegibles para conversión retrospectiva a OA. Los artículos aceptados antes de la ejecución de la Carta de Acceso Ampliado y publicados en OA no contarán contra la cuota de APC (si corresponde), ni serán elegibles para reembolsos al autor correspondiente.

3 Acceso Abierto

3.1 Durante el Plazo Inicial, se otorga a los Autores Correspondientes el derecho, como parte de los derechos de acceso abierto y sujeto a los términos de este Anexo 3, de publicar un número ilimitado de artículos en Acceso Abierto cada año en las revistas de Elsevier propiedad y publicadas:

(a) revistas híbridas principales de la Colección Freedom establecidas en el Anexo A de este Anexo 3 (las “Revistas Elegibles”), excepto por las revistas híbridas The Lancet y Cell Press.

3.2 La inclusión de revistas podrá estar sujeta a cambios de vez en cuando, incluyendo, pero no limitándose a, cambios resultantes de la incorporación de nuevos títulos de revistas, transferencias de revistas y/o cambios en el modelo de negocio o propiedad. Si una revista híbrida

a core hybrid journal that is also an Eligible Journal converts to fully gold open access during the Initial Term, such journal will remain an Eligible Journal under this Agreement. 4 Workflow 4.1 The Elsevier publishing workflow will use the acceptance date to determine the eligibility of an article under the Agreement. In order to benefit from the commercial arrangements mentioned in this Schedule 3, articles submitted by the Corresponding Author must be accepted by the relevant Eligible Journal during the Initial Term. 4.2 In Elsevier's journal workflow, the Corresponding Author will specify the institution that they are affiliated to and the relevant research funding source(s). Based on this data, Elsevier will provide the Corresponding Author with the relevant publishing options.
